LISA DEUTSCHENDORF

604-600-0412 | Lisa.deutschendorf93@gmail.com | Prince George, BC | IEC Open Work Permit

Available Immediately • Open to FIFO and Rotational Camp Work • No Fixed Location Preference

PROFILE

Physically resilient outdoor field worker with hands-on experience in remote-terrain, weather-exposed roles across Canada, Australia, New Zealand and Germany, spanning vegetation management, industrial production, forestry and horticulture. Comfortable working independently or in small crews in isolated, physically demanding conditions, adapting quickly to new terrain, equipment and safety procedures. Seeking entry into mineral exploration, mine site operations, core processing or drilling support; fully open to FIFO and rotational camp work.

SKILLS

- Remote outdoor field work in isolated, physically demanding terrain
- Site preparation, layout, flagging & field logistics
- Crew-based & independent work across shifting remote worksites
- Chemical handling & safety compliance (herbicide application)
- 4x4 and side-by-side/UTV operation
- Equipment operation, troubleshooting & basic maintenance
- Industrial production operations
- Forestry & vegetation management
- German driver's license with International Driving Permit

EXPERIENCE

Vegetation Management Technician

Spectrum Resource Group | Prince George, BC | 06/2026 – Present

- Applied herbicide using a 60 lb backpack sprayer across large forestry/vegetation-management sites, including steep, remote and uneven terrain
- Carried out pre-work and site layout for new contracts, flagging and mapping treatment boundaries and preparing sites ahead of crews
- Operated water pumps and transfer equipment to fill, mix and prepare spray tanks
- Operated 4x4 and side-by-side/UTV vehicles for site access across remote and uneven terrain
- Rotated through five different crews and crew leads across multiple contracts and regions in BC and Alberta, adapting quickly to new teams, terrain, herbicides and field procedures each time

Production Operator

Canola Oil Factory | Squib Group | South Australia | 2025

- Operated and monitored full production process alone from intake to final output
- Maintained continuous production flow and resolved system disruptions
- Performed troubleshooting and supported maintenance teams and contractors
- Assisted with machinery repairs and industrial maintenance tasks
- Managed shutdown and restart procedures during power outages
- Trained and supported new employees during onboarding

Seasonal, Forestry & Agricultural Work

Various Employers | New Zealand & Australia | 2023–2025

- Forestry, winery production and horticultural harvest work across New Zealand and Australia, including physically demanding outdoor and production-line roles

CERTIFICATIONS

- S100 Fire Suppression & Safety
- Herbicide Applicator Assistant Certificate
- Forklift Operator Licence (Australia)
