Irwin's Safety

## Career Objective

Detail-oriented professional with excellent communication, interpersonal and creative thinking skills. Aiming to leverage my abilities to successfully fill the vacancy at your company. Frequently praised as hardworking by my peers, I can be relied upon to help your company achieve its goals

## EXPERIENCE

### Geotechnician - Core Tech (See projects)

May 2017 - PRESENT

- Secured a reputation for reliable and precise sampling in the field and within core facilities on 4 projects.
- Provided expertise in sample preservation, allowing millions of dollars of perishable data to withstand the elements for years to come.
- Operated geophysical and geochemical equipment in order to collect essential metadata.

### Mill Helper - Nicola - Copper Mountain

October 2022 - October 2023

- Rapidly developed new skills outside of original profession.
- Observed equipment to drive smooth operations and detect and correct malfunctions
- Became proficient in the use of telehandlers and skid-steers and overhead cranes

## PROJECTS

### Elk Gold mine

Feb 2025 - August 2025

- Cut over five kilometers of core throughout employment
- Located and mapped historical drill holes in storage throughout the property (~1300 holes, ~168,000m)
- Began training as a core logger (Incomplete)

### New Craigmont

June 2023 - Feb 2024

- Wrote SOP's to implement best practices during sampling
- Processed ~3000m of drill-core for sampling
- Completed a photo relog project involving >5000m of drill-core

### Miner Mountain

May 2017 - June 2022

- Began vocational training as a Coretech
- Assisted Geologists in mapping projects, trenching and outcrop sampling
- Discovered Native gold on the Miner Mountain property
