

IGBINEDION EGUAGIE

Contact Address: 15 First Ivbiore Street, Benin City, Edo State.

Phone Number: 08139797473

Email: igbinedioneguagie@yahoo.com

OBJECTIVES:

To be a part of dynamic growth oriented organization where I would have the opportunity to effectively utilized and maximize any skills in contributing meaningfully towards the achievement of the organization's goals

EDUCATION QUALIFICATION WITH DATE

- POST GRADUATE NATIONAL DIPLOMA IN APPLIED PETROLEUM GEOSCIENCES (2014)
- UNIVERSITY OF BENIN, BENIN CITY, EDO STATE B.Sc. GEOLOGY (2008)
- UNIVERSITY DEMONSTRATION SECONDARY SCHOOL, BENIN CITY, EDO STATE, SENIOR SECONDARY SCHOOL CERTIFICATE EXAMINATION (W.A.E.C) (2004)
- UNIVERSITY STAFF SCHOOL BENIN CITY EDO STATE FIRST SCHOOL LEAVING CERTIFICATE (1994).

EXPERIENCE:

1. Anbutal B Multiservice Limited (2016-Present)
Environmental Geologist

Responsibilities:

- Plan geology projects (e.g. oil extraction, water pipe construction) and field sampling events
- Survey sites and create logs (e.g. borehole) and maps using GIS
- Gather and analyze geological data
- Examine the composition of samples and specimens
- Measure and rocks, soil, ores and other material with the proper instruments (e.g. X-rays)
- Write reports on findings

- Conduct quality control on the suitability of material (e.g. metals for construction purposes) and inspect projects
- Study sites for developments, formations, hazards, and composition
- Investigate and evaluate natural resource deposits (e.g. oil)
- Consult on various geology-related issues like waste management, resource management, gas extraction techniques a
- Ensure environmental and other regulations are met in construction and production projects (e.g. oil wells)

**2. HALDEN NIGERIA LIMITED
PVT ANALYST**

(2014 -2016)

Responsibilities:

- Surface and Bottom hole collection of hydrocarbon samples .
- Carrying out of reservoir fluid analysis. It studies include reservoir determination of gas-oil ratios, saturation pressures, shrinkage studies, separator tests, constant composition expansion test, differential liberation tests, constant volume differential tests, fluid compositional analysis.
- Assists and conducts phase behavior and PVT studies for black oils, volatile oil and gas condensates. .
- Troubleshoot and routine maintenance of PVT systems and recombination cell.
- Assist Laboratory manager in data calculations and in the preparation of reports.
- Reservoir fluid characterization and phase behavior analysis.
- Flow assurance studies.

INDUSTRIAL TRAINING FUND MIANGO ROAD,PLATEAU STATE

(NYSC 2009- 2010)

TRAINNEE IN MINERAL MINNING

TRAINING AND CERTIFICATION:

TOLMANN DEEPWATER SURVIVAL TRAINING CENTRE (2015):

1. T.BOSIET:

- Survival At Sea (SAS).
- Offshore safety Induction (OSI).
- Basic Fire fighting And Self Rescue
- Basic First Aid (BFA)

- Tropical Helicopter Underwater Escape Techniques (THUET)

2. HELICOPTER LANDING OFFICER (HLO)

3. INTERNATIONAL MINIMUM INDUSTRY SAFETY TRAINING (IMIST).

4. TRAINING IN FLOW ASSURANCE: VOGW CONCEPTS LIMITES (2015)

SKILLS:

- ECLIPSE, PETREL, PROPER ,MBAL AND DECLINE CURVE ANALYSIS
 - Multiphase Flow
 - Production Optimization
 - Reservoir Engineering
 - Flow Assurance

• **LANGUAGES SPOKEN:**

English and Bini language

HOBBIES:

Reading, Music and Soccer

REFEREES:

Available on request
