Exploring opportunities to grow professionally in the mining or exploration sectors while continuing my journey to become a licensed professional geoscientist in Canada (P.Geo). Willing to travel or relocate. Dual Nationality (Canadian/British).

EDUCATION

University of Western Ontario
B.Sc. Specialization in Geology

London, Ontario
Graduation May 2023

PROFESSIONAL SKILLS

- Identification of rocks and minerals in the field
- Safe operation of power tools and field equipment
- Physical endurance for field work
- Hand signal communication with operators on mine site
- Amateur Leapfrog Geo ability and Minesight familiarity
- Experience with Microsoft Office suite
- Adaptability to new work sites and environments
- Communication and people skills

EXPERIENCE

Ore Control Geologist, Nhwelmen Construction at Elk Gold Project July 2023 – April 2024

Worked closely with the Mine Engineer, Survey, and Geology teams to identify gold-bearing quartz veins within a blast package, design an extraction plan and execute ore recovery in the pit. Other duties included:

- Directly supervised mining the ore/waste contacts in the mining operation, ensuring mineralized material was routed correctly and maximized the value of the mineral resource by implementing effective dilution and ore recovery controls.
- Assisted in the design and execution of all ongoing mine operations and planning.
- Assisted in the exploitation of the Company's Elk Gold Project open pit operation.
- Conducted ore production forecasting and modeling; reconciled between the resource model, mining models, and actual ore production.
- Worked with and gave ore control direction to the on-site mining contractor.
- Monitored, collected, and prepared ML/ARD samples and Vein Profile samples.
- Completed additional daily ore control tasks including mapping, sampling, stockpile management, ore/waste delineation and mark-up, as well as working with mining software applications.

CERTIFICATIONS AND LICENSES

- Registered Geoscientist in Training (GIT) with Engineers and Geoscientists BC (EGBC)
- Leapfrog Geo Fundamentals certificate
- BC Class 5 Driver's License
