

Justin Lockhart, M.Sc., G.I.T.

Kitimat, BC, Canada, V8C 2J3 • Tel. (905) 703-5173 • justinlckhrt@gmail.com

PROFESSIONAL SUMMARY

A skilled, adaptable, and dependable Geologist with two years of multi-commodity experience in mineral exploration. Competent in core logging, field sampling, geological mapping, and QA/QC protocols. Demonstrates strong leadership and collaboration in remote environments, with a commitment to safety, ethical practices, and effective communication.

EXPERIENCE

Field Geologist

2024/05 – 2025/09

Baffinland Iron Mines, Mary River, Nunavut, Canada

- Logged banded iron formation (BIF) from Mary River Group (MRG) formation with DHLogger for relogging program, and cut and sampled core for ARD, beneficiation, and DSO programs
- Assisted with RC chip logging and sampling to support grade control program, as well as routine tasks, including blasthole and crusher sampling, surveying, and data reporting
- Supported regional exploration and prospecting programs of MRG-hosted BIF, BIF-hosted gold, magmatic Ni-Cu-PGE, SEDEX, and MVT-style Cu-Pb-Zn-Ag deposits within the Borden Basin

Exploration Geologist

2024/09 – 2024/11

GroundTruth Exploration, Northern Ontario & Québec, Canada

- Conducted 1:10,000 scale outcrop mapping and till sampling of greenstone-hosted lithium pegmatites in the La Grande and Wabigoon geologic subprovinces
- Assisted with packing and recording sample shipments, adhering to QA/QC protocols
- Participated in daily health and safety meetings to ensure safe working environment

Junior Geoscientist

2023/08 – 2024/04

Waldo Sciences, Northern Ontario & Québec, Canada

- Assisted with core and geotechnical logging, and core sampling of a 20,000 m Ni-Cu-PGE drill program within the Ducros sill ultramafic complex, using GeoSpark for logging
- Helped with prospecting and till sampling for orogenic gold and lithium pegmatite exploration within the Abitibi Greenstone Belt

EDUCATION

M.Sc. in Environmental & Life Sciences

2021/05 – 2023/06

Trent University, Peterborough, Ontario

- Specialization: Aqueous Geochemistry

Honours B.Sc. in Environmental Geoscience

2017/09 – 2021/05

Trent University, Peterborough, Ontario

KEY COMPETENCIES & CERTIFICATIONS

Field & Exploration Skills: Core logging and sampling, geological mapping field sampling

Geological Software: DHLogger, ArcGIS, QGIS, MapInfo, Microsoft Office, Leapfrog Geo

Certifications: Geoscientist-in-Training (PGO), Standard First Aid & CPR Level C, BC Class 5 Driver's License
