Summary

As a geoscience student with a focus on mineral exploration, I bring a passion for uncovering the hidden treasures of our planet. My experience includes a summer with Hudbay Minerals Inc. where I gained hands-on experience in geologic mapping, prospecting and core logging. Through this experience, I developed strong analytical and problem-solving skills, as well as an understanding of the importance of maintaining high standards of safety and environmental stewardship.

With four years of BSc. studies at Vancouver Island University majoring in Geoscience, I am well-versed in the theories and principles that underpin mineral exploration. I am committed to continued learning and growth in this field, and my long-term goal is to situate myself within the mineral exploration industry.

In addition to my academic and professional pursuits, I hold a Pleasure Craft Operator's card and enjoy spending time on the water. I believe that a healthy work-life balance is essential for both personal and professional success.

Thank you for the opportunity to share my story. I am excited to connect with like-minded professionals and explore new opportunities in the geoscience and mineral exploration fields.

Experience

Summer Student

Hudbay Minerals Inc.

Jun 2022 - Aug 2022 (3 months)

As a student working for Hudbay Minerals Inc., I had the opportunity to gain hands-on experience in various aspects of the mining industry. From tailings sampling to core logging, field mapping, prospecting/hardrock sampling, core box organization, remote site maintenance (sediment control, site assessment, waste management), inventory assessment, and core teching, I learned how each of these roles plays an important part in the overall mining process.

Through this experience, I developed a strong understanding of the importance of maintaining high standards of safety, environmental stewardship, and community engagement in the mining industry. I also honed my skills in data collection, analysis, and organization, which have been invaluable as I continue to pursue my career in this field.

Overall, my summer at Hudbay Minerals was an excellent opportunity to gain practical experience and develop skills that I can apply throughout my career. I am excited to continue building my expertise in the mining industry and contributing to sustainable and responsible mining practices.

Labourer

Contract

Apr 2021 - Aug 2021 (5 months)

As a contracted labourer, I refinished a two-story log home by sanding, staining with three coats, and applying a clear coat. I also caulked between the logs. I paid close attention to detail and completed the project on time and within budget.

Produce Clerk

Real Canadian Superstore

Jul 2018 - Jan 2019 (7 months)

As a produce clerk for the Real Canadian Superstore, I unloaded supply trucks, organized produce in the back room, stocked fresh food, removed bad food, operated recycling and garbage compactors, and assisted customers in finding items within my department. I also calmly dealt with angry customers and brought a manager to ease their concerns. Our department sold the most local produce in any Real Canadian Superstore from BC to Alberta that season, and I was recognized for my hard work with a winter jacket prize.

Volunteer

Habitat for Humanity ReStore

Oct 2016 - Mar 2017 (6 months)

At the Habitat for Humanity ReStore, I organized donations, assisted customers with loading/unloading items, stocked shelves, and located items for customers. I gained valuable skills in organization, customer service, and teamwork while contributing to a worthy cause.

Education

Vancouver Island University

Bachelor of Science, Geoscience

2019 - 2024

Earth Science Club Treasurer

Licenses & Certifications

Pleasure Craft Operators Card - Government of Canada

Skills

Geological Mapping • Core Logging • Sampling • Easily Adaptable • Geographic Information Systems (GIS) • Communication • Fast Learner • Field Work • Environment, Health, and Safety (EHS) • Attention to Detail

Honors & Awards

Dean's List - Vancouver Island University

Apr 2021
