

Name : **OUEDRAOGO**
First name : **ABDOUL RACHID**
Phone : **+226 7464 9292 // +226 6259 7629**
E-mail : **abdoulrachidouedraogo1404@gmail.com**

Skills

- More Than Two (02) years of Exprience in the Field as Geologist for Gold Exploration ;
- Able to Work in a Team ;
- Ability to Anticipate and Solve problems ;
- Confident and Honest ;
- Good Time Management ;
- Good Management of the Field Staff ;
- Excellent in Oral and Written Communication ;
- Good learning and Adaptation Skills ;
- Good Time and Stress Management ;
- Ability to Multitask ;
- Work in accordance with HSEC(Health , Safety, Environment and Community) policies ;
- Sens of Responsability and Priorities, Autonomous, Methodical and very innovative to details and very Responsive ;
- Attentive to deadlines and very Responsive.

STUDIES

2019-2022: Geological and Mining Engineering Bachelor Degree at the Higher School of Engineers of Fada N'Gourma(Burkina Faso in West Africa).

2018-2019: Bachelor's Degree D series.

PROFESSIONAL EXPERIENCE

2025: I'm currently a Junior Geologist at BIC GOLD CORPORATION and we are Working on the Birimian in Banfora Greenstone Belt in Burkina Faso west Africa on orogenic Gold Exploration. I am part of the Geologist team that was able to discover 320,000 Ounces of

Gold (150,000 ounces in Indicated Resources and 170,000 ounces in Inferred Resources and we are still testing the Targets on Samaradougou (in the west part of Burkina Faso).

2024: Geologist-In-Training(G.I.T) in Gold Exploration ;RC Drilling of Resources and Exploration Around 6700 meters have been Drilled During this Campaign at B.I.C GOLD CORPORATION a subsidiary of SUPREME GOLD CORPORATION (Project SARAMADOUGOU on the prospect MOUSSOBADOUGOU I in western Burkina Faso), Regolith Mapping in Samaradougou and Dabokuy Permit ,Auger Drilling for this type of Drilling around 15.000 meters have been Drilled, Trenches , Diamond Drilling around 2533.55 meters have been Drilled, Diamond Cores Logging, Blank Sample Verification and Insertion; CRM(Material Reference Certificate) Before sample packing for the Laboratory, Pulps Samples Preparation , Fine Rejects and Coarse Rejects for re-analysis, Geological Data Entry.

2023: Geologist-In-Training(G.I.T) for Exploration Geochemistry at B.I.C GOLD CORPORATION, a subsidiary of SUPREME GOLD CORPORATION (MANIS project in Koupéla in the East of Burkina Faso in West Africa)

2023: Practical Internship in Physicochemical Analysis of Water at the National Office of Water and Sanitation (ONEA) of Paspanga, Ouagadougou (Burkina Faso).

2023: Research protocol on <<EVALUATION OF THE STABILITY OF THE WALLS OF THE BOUNGOU MINI-PIT IN EASTERN BURKINA FASO >>

2023: Master of the SURPAC software (modelling and design of the mine pit and geological survey section for research and production drilling).

2023: Training in Health and Safety in Underground Mines.

2022: Driving Licence Category C

2019: Training in 3D modelling of mine wells.

COMPUTER LANGUAGES AND SKILLS

Languages spoken: **M, French, English (medium).**

Languages read, written : **French, English.**

Computer: **Word, PowerPoint, Excel,**

Mining software: **QGIS, ARC MAP, ArcGIS , Leapfrog,SURPAC.**

- **QA/QC Sampling, Data Processing .**
